PLAN FOR COLONIZATION OF EAST GREENLAND Conditions Considered Good for Sup-

porting a Large Population. Copenhagen. Denmark, Nov. 18—
The Danish Greenland society, which includes the prominent Danish Arctic explorers, intends to launch a plan for the colonization of uninhabited East Greenland. West Greenland will soon be over-populdated, Daniesh North Greenland already is well-peopled, while in East Greenland the conditions are considered good for supporting a larger population of Eskimos.

Denmark previously has only had nominal possession of the country and other nations will hardly recognize her supremacy until a Daniesh station has been established, the Daniesh flag raised, and Danish inhabitants settled.

The announcement of Danish plans to extend colonization in Greenland is of some particular interest to the United States because this country may still claim ownership of vast tracts of that arctic land through discoveries which America nexplorers have made. In negotiations still pending between this country and Denmark over the sale of the Danish West Indies to the United States for \$25,000,000, one condition to the sale is the relinquishing by this country of all its rights in Greenland. The land discovered by Americans is mainly along the northernmost coast, however, in a region to deeply covered with snow and ice that it is doubtful that it ever can be considered of economic value.

Selections by Quartette. At this point a quartette of Bass Clef singers, accompanied by Miss Annie Taft, rendered two selections which were most heartily applauded. Edward A. Harriman of New Haven president of the church club of the diocese, was next introduced by the toastmaster. He told the laymen just what sort of an organization a church club is and what it attempts to do. One of the things the church club one or the things the church club does, he said, is to bring men together from different parishes and to im-press on them that the church is more than the diocese and the diocese more than the parish. Another thing this club does is to support the Connecti-cut Churchman. The church should cut Churchman. The church should be universal. It should be for every-one, he said. A church which is lim-ited to the saints finds too often its nbership made up of scribes and He spoke of this as a special time

for an appeal for the pension fund.

The pension fund, he said, is not a charity. It is a debt which the laymen owe to the clergy. I can only urge you to increase the pension fund and to see that Connecticut does her

In closing he said: There has been but one excuse why a man does not belong to the church club of the diocese; that is, because he could not afford it. Now it will be because he is a member of the Church Club of the New London Archdencoury, How-ever, we want you to be represented at the meetings of the diocesian club The banques would not have been complete without a few words from the archdeacon, J. Murphy and Frank J. Murtha a member of the state board of Foresters, were the speakers of the evening.

Lewis A. Andrews of Court Sachem was the chairman and he introduced Ex-Mayor Timothy C. Murphy, who is a charter member of Court City of Norwich, the oldest court in the city as the first speaker. Ex-Mayor Murphy spoke along the lines of increasing the membership. He stated that since the Foresters were organized 29 years ago in this city they have spent over \$175,000 for benevolent purposes and still have over \$15,000 in cash to their credit in the city banks. The Foresters now have a membership of over 700 in this city and he emphasized the increasing of the membership to over a 1,000 by the time of the next rally when the state officers will be present.

MYSTERY SURROUNDS DEATH OF CHHRISTINE DIEMER Whose Body Was Found in the Ver-

milion River at Pontiac, III. Pontiac, Ills., Nov. 16.—A new note of mystery was added to the tragic death of Christine Diemer today by A. B. Middleton, the physician who performed the autopsy, who declared that in his opinion her body was thrown into the Vermilion river not more than three days before it was found. This apparently established a lapse of nine days from the time of

her disappearance until the body was thrown into the river.

Some of the theories advanced today were that Miss Diemer was mur-dered the night of her disappearance her body hidden for nine days and her body hidden for nine days and then thrown in the river, that while hysterical she fied into the nearby woods and remained there until she was attacked; or that she might have been held prisoner in a hut beside the river until she was murdered. Dr. Middletown asserted the wom-an might have been killed immediate-ly before she was thrown into the river or several days before.
